WORK EXPERIENCE

UI/UX Designer | **Webnox Technologies** Dec 2024 – Present

Coimbatore

- Designed intuitive and user-centric interfaces for **Websites, Web Applications, and Mobile Apps using Figma**; developed **wireframes, high-fidelity prototypes**, and research-driven user flows while collaborating closely with developers to ensure seamless and pixelperfect implementation.
- Created **logos, social media creatives, banners**, and marketing materials aligned with **brand identity** and **business goals**.
- Created high-quality **3D models** and **interactive visual elements** using **Blender**, enhancing website aesthetics, **user engagement**, and overall digital experience.

UI/UX Designer Intern | **ICore Software Technologies** June 2024 – Sep 2024

Coimbatore

- Designed user-friendly UI/UX for **websites and web applications** using **Figma**, including **wireframes, prototypes, and user flows**.
- Conducted **user research and competitor analysis** to improve usability and enhance overall user experience.
- Collaborated with **developers** to ensure accurate, responsive, and pixel-perfect implementation of designs

KEY PROJECTS

Taxi Booking Ecosystem · TaxiBy [Mobile App, Admin Dashboard & Website]

Designed and delivered the TaxiBy ecosystem, including a customer **taxi-booking mobile app, driver application, admin dashboard, and informational website**. Created intuitive user experiences, **booking workflows**, and management interfaces while collaborating closely with developers and stakeholders to ensure seamless implementation and a scalable, **user-centric** platform.

CMS Dashboard System for Website · Eastland Distribution [CMS Dashboard & Website]

Designed and developed the Eastland Distribution **website and CMS dashboard**, enabling administrators to easily manage and update website content, images, and brand information through an intuitive interface, **improving content management** efficiency and ensuring a seamless, scalable digital experience.

Website for Career Development with Dashbaord · Spearwin [Admin, Candidate & Compnay Dashboard & Website]

Designed a career development platform featuring guidance, training, growth and opportunities with **interactive website animations**. Created an **admin dashboard with CMS capabilities** to manage content, candidates, and company accounts, along with dedicated **candidate and company dashboards** to streamline recruitment, engagement, and platform administration.

Information Website with animation · SNK Construction [Interactive Website]

Designed the SNK Construction website with **visually engaging layouts** and **interactive animations**, showcasing construction services, projects, and brand identity through a modern and **user-centric experience** that enhances customer engagement and online presence.

Stock Market Admin Dashboard · Amaramba [\[Admin Dashboard\]](#)

Designed an **administrative dashboard** for Amaramba, a **Zimbabwe-based stock market platform**, enabling administrators to **manage users, monitor stock transactions, oversee buy and sell orders, track deposits and withdrawals**, and analyze market performance through intuitive data visualizations and centralized controls.
